TANMAY HAOLADER

ASSISTANT PROJECT MANAGER | SOFTWARE ENGINEERING | SAAS • E-COMMERCE • ERP

Feni, Chittagong, Bangladesh | +880 1814 903373 | tanmay.hpappu@gmail.com

PROFESSIONAL SUMMARY

Technology professional with extensive experience across software engineering, e-commerce platforms, system design, team coordination, and project delivery. Currently working as an Assistant Project Manager at Softsurgeon, supporting SaaS, e-commerce, and ERP projects. Combines hands-on engineering knowledge with project coordination, task planning, team follow-up, technical communication, and product-focused thinking. Experienced with modern technologies including PostgreSQL, Next.js, and Node.js, with previous experience working with PHP/MySQL, Laravel, Java/Spring, JavaScript, HTML/CSS, and MEAN-stack e-commerce systems.

CORE COMPETENCIES

- Project Coordination & Delivery
- Task Planning & Follow-up
- Team Coordination
- Software Development Lifecycle
- Requirement Analysis
- System Design
- SaaS & E-commerce Products
- ERP Systems
- Technical Documentation
- Stakeholder & Team Communication
- Code Review & Quality Practices
- Product & Process Improvement

PROFESSIONAL EXPERIENCE

Assistant Project Manager — Softsurgeon

2024 – Present

- Coordinate day-to-day project activities across SaaS, e-commerce, and ERP initiatives.
- Assign and follow up on development tasks while coordinating a team of approximately four members.
- Support project planning, execution, progress tracking, and delivery activities.
- Coordinate technical work between project requirements and implementation teams.
- Use Slack for team communication and GitHub for development workflow and project collaboration.
- Apply technical understanding of PostgreSQL, Next.js, and Node.js when communicating requirements, reviewing implementation context, and supporting project decisions.
- Contribute to product and process discussions with an engineering-oriented understanding of software architecture and development.
- Worked on Bhuiyamart as a project/product experience, contributing within the broader e-commerce technology environment.

Sr. Software Engineer — DevTech Guru LTD.

November 2021 – Present | Dhaka

- Assigned and coordinated development tasks within the engineering team.
- Worked on system design and software architecture activities.
- Contributed to e-commerce software, including improved product-matching functionality using algorithms.
- Participated in code reviews and worked with product teams to improve scalable custom software.
- Partnered with five interns to understand user stories and communicate findings, goals, and progress to the CTO.
- Utilized the MEAN stack to enhance and maintain an e-commerce platform.
- Conducted peer code reviews and documented code changes according to organizational change protocols.

Software & Web Developer — SP Wave

February 2016 – March 2020 | Dhaka

- Worked with stakeholders to gather functional and technical requirements.

- Contributed to software design, development, system analysis, and software/site management.
- Facilitated software upgrade releases and supported ongoing application development.
- Worked across multiple software and web development projects.

Software Development Intern — SP Wave

January 2012 – March 2012 | Dhaka

- Shadowed senior team members and learned day-to-day software development practices.
- Completed small development projects and presented work to leadership.
- Assisted with workflow and process improvement activities.

TECHNICAL SKILLS

Current / Recent	PostgreSQL • Next.js • Node.js • GitHub • Slack
Previous	PHP/MySQL • Laravel • Java • Spring Framework • JavaScript • HTML • CSS • jQuery • Ajax • jQuery Mobile • XML • MEAN Stack
Engineering	System Design • Software Architecture • Code Review • Web Development • E-commerce Systems • Basic Web Security
Other	Office Applications • PC Hardware Assembly • Network Configuration & Management • Embedded Projects

SELECTED PROJECT EXPERIENCE

Bhuiyamart — E-commerce project/product experience at Softsurgeon.

E-commerce Platform — MEAN-stack based e-commerce platform enhancement and maintenance.

AFCS — Software development project.

Inventory Management System — Inventory and stock management software.

Smart Stock — Stock management software.

Smart Deposit Manager — Deposit/management software.

Speak Bangla — Web/application project; also listed among developed sites/applications.

Smart Inventory System Management — Inventory management project.

LandBee — Software/application project.

Smart School Management System — School management software.

Automatic Question Generating System — Automated question-generation software.

EDUCATION

B.Sc. in Engineering — Computer Science & Engineering
University of Information Technology & Science | January 2013 – October 2016 | GPA: 3.09/4.00

Diploma-in-Engineering — Computer Technology
Feni Polytechnic Institute | January 2007 – December 2012 | GPA: 3.07/4.00

Secondary School Certificate — Computer Science
Feni Technical School and College | January 2005 – January 2007 | GPA: 3.82/5.00

LANGUAGES

English — Well versed in written and spoken communication | Bengali — Mother tongue

PROFESSIONAL INTERESTS

Software Architecture • Artificial Intelligence • Cryptography • Web System Security • Digital Products

PROFESSIONAL PROFILE

Engineering-to-project-management profile with a practical understanding of software development and product delivery. Career experience spans software development, system analysis, e-commerce platforms, team coordination, and current project-management responsibilities across SaaS, e-commerce, and ERP environments.
